

Order a Pre-Configured 360 Y-DROP™ System (Quick-Order)

Step 1:

Provided below are pre-configured component lists for our most common 60 ft Y-drop systems on 30" rows. Included are the part numbers and quantities needed for our standard, recommended configurations. Based on your specific application, different options may better suit you, in which case you can still use our standard, step by step ordering process (on the following pages). These listings are simply intended to be a quick and helpful guide for our most common configurations.
